RELIABLE IN THE FIELD
SinoGNSS T300 GNSS receiver is a compact RTK GNSS receiver tracking all working constellations, which performs well with each constellation independently. With SinoGNSS QUAN™ technology and its strong anti-interference design, the T300 provides high-accuracy position availability and reliability no matter where you are.

RUGGED AND EASE OF USE
The rugged housing with IP67 Dustproof & Waterproof design makes the T300 perfectly and effectively work even in harsh environments. Small volume with less than 1kg weight makes the T300 one of portable GNSS receivers meeting your RTK survey demands. Built-in 8GB internal memory enlarges your data storage in the field.

INTEGRATED GNSS RECEIVER
The T300 GNSS receiver combines a GNSS board, Bluetooth® and adjustable TX & RX UHF into one compact device, which is one of the most reliable choices for any surveying tasks. Built-in GPRS/GSM/4G modem ensures the T300 seamlessly work with all kinds of CORS.

SMART BATTERY DESIGN
With two hot swap batteries, the T300 helps to extend working hours and ensure your fluent workflow in the field. The battery LEDs flash when battery shortage. Moreover, you will benefit from its consumer-grade battery design, compatible with Canon LP-E6, which is easy to purchase and replace in your local market.
